Wedding & Engagement  
2021/22 Products & Price Guide

A photograph of a couple kissing on a dance floor. The scene is dimly lit with a blue and purple glow. In the foreground, a hand is raised, pointing upwards, with a bracelet visible on the wrist. The couple is in the center, embracing and kissing. The man is wearing a white shirt and a dark bow tie, and the woman is wearing a dark dress. The background is dark, suggesting an indoor venue.

## your story

This is the one day of your life where it's all about you ...*your story*.

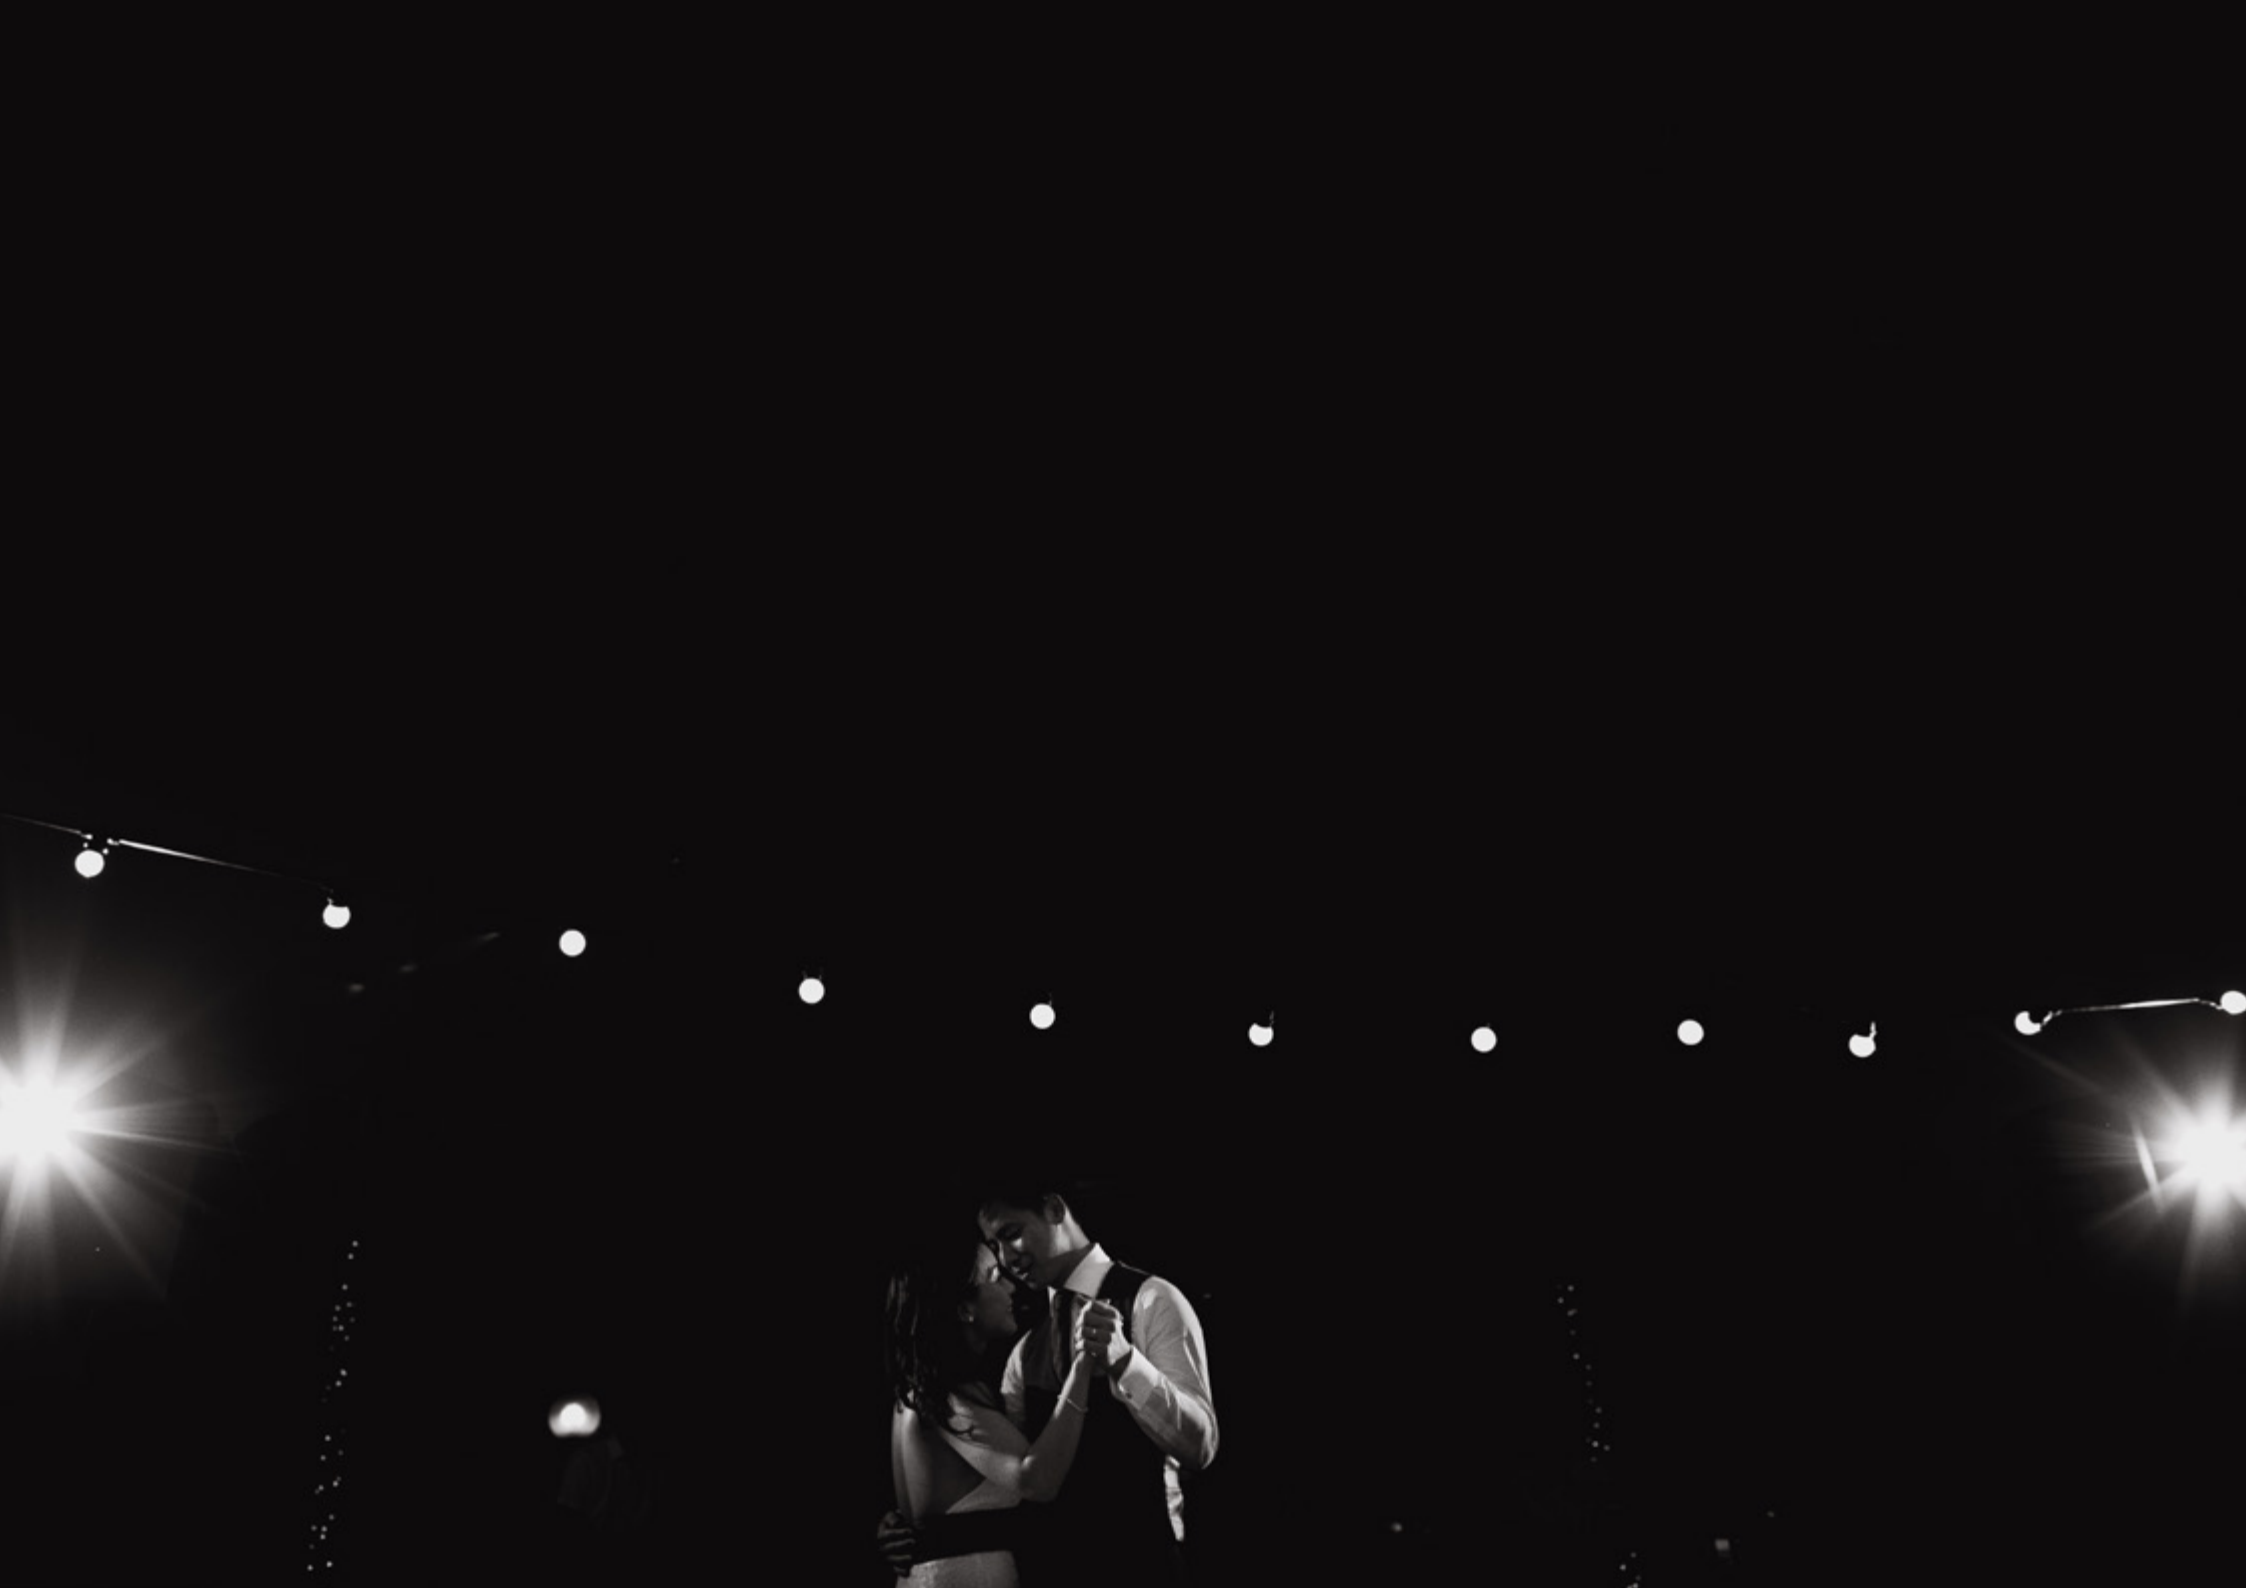

I photograph *your* story of the day; the real emotions, the real details as they are, on *your* wedding day.

Your wedding is not about me and my vision for the day but capturing the moment as you remember it. That's why I choose to focus on capturing the emotion and atmosphere of the day in a natural way.

The result is a beautiful story portrayed through pictures.

Told through *your eyes* ...capturing *your* memories.

## my style

Real moments ...beautiful images.

Your wedding day is a very special moment in your life and I don't want you to spend it posing for photographs. I want you to enjoy your day as it happens, so I will not be setting up big flash stands or asking you to recreate a pose.

I photograph you and your guests totally naturally; capturing a moment in time.

My presence is like a guest with a camera, being quiet and considered. This is how I manage to document emotions...

...like the one here of Tara saying her wedding vows. She didn't notice my presence so I was able to capture this intimate moment as it happened.

Natural light is my specialty and during the bride & groom portraits you won't be waiting around for me to setup flash lights and putting you into fake poses.

I want you to just enjoy being with each other – you've just got married! – and I'll capture you naturally together.

## engagement & pre wedding

The engagement session is all about the two of you and I have two words that sum up my approach “get close”.

I will not be posing you miles apart but bringing you close together so you can get lost in the moment. At the point when you forget I'm there is when I can capture a real moment between you...

...like this one here.

It's also a great chance for us to get to know each other, and for you to relax in front of the camera before your wedding.

I feel that you should have as many images of this special occasion as you can. That's why I do not limit the number of images that you receive.

You will get all of the images that I have edited and retouched on a USB in my beautifully packaged presentation box.

My opinion is that we both took the time to take the photographs so why shouldn't you get them all!

# all about me

Born and raised in England I'm a former UK television broadcast engineer and I worked for BBC News & Sport for many years.

In 2008 I met my wife Eva and we moved to Hong Kong to start a new adventure. Now we have two more team members - Aleksandra & Thomas. They're my inspiration for everything I do and I love taking time out to photograph us as a family.

I love photographing people and weddings especially.

I feel it is a huge honour to be entrusted to document the biggest day in your life and always strive so that my photos reflect the day as it happened through your eyes.

I don't want you to think of me as just a photographer but also a friend. So I hope I get the chance to capture your wedding day and make some amazing friends along the way.

Have a great day!
